Cynthia,

Thanks for the reminder. Attached are my suggested edits. I edited the March, 2015 document first but I'm not clear whether you were even looking for comments on that one. I didn't suggest much in the way of edits on the December, 2015 document b/c I had already edited the earlier document. I hope this helps and I didn't make a mess of things.

Mark

Hello, again.

Could you take a look at the proposed text for the CFAC web site and let me know if you approve? I think there may still be a chance we can get it uploaded before the meeting next week, but not sure. However, I would really like to be able to refer folks to the web site at the meeting next Thursday if at all possible.

Thanks!

Cynthia

Good Morning!

Would you have a chance to take a look at the proposed web site text in the next day or two? I'm going to be out of the office for much of the next couple of weeks, so I can't promise, but I'd really like to try and have the website up and running before the meeting on 1/21. Mark, could you make sure the AOC is in SEMS so we can upload it to the webpage when we are ready?

Thanks!  
Cynthia

Good afternoon.

Attached is some text I took from our old CFAC Web site that I would like to put on our new (currently empty) Web site. (I've attached both the old text and the new template). I have a couple of questions. Has an information repository for this site been established at the Montana Office? I think we just set one up here with the proposed listing, not in Montana. Should we set one up there?

Would you take a look and edit as needed? I will be working with Bill Cooper here to upload the Federal Register Notice and the Site Reassessment Report. Let me know if there are other documents you would like to have added to the Web site. As long as they are in SEMS, I can get them uploaded fairly easily.

I'm not sure we can include a link to MDEQ. If not, would you like to add an additional MDEQ contact?

Sorry I have been so delinquent in working on this page. I promise to do better!

Thanks!  
Cynthia
